

REQUEST FOR PROPOSAL

RELOCATION OF THE NAR SECTION HOUSE TO NARDAM PARK

The Municipal District of Spirit River is looking for proposals from Contractors that are interested in facilitating the relocation of the NAR Section House from four miles east of Rycroft to NARDAM Park west of Rycroft. The MD has secured a building mover to undertake the relocation in July. The building mover will be responsible for loading, insurance, permits and off-loading onto an approved foundation.

The requirements of the Contractor are as follows:

- Measure the existing Foundation and prepare the new foundation to accommodate the relocation in communication with the building mover,
- Prepare the building so that it can be moved in consultation with the building mover,
- Assist the building mover on the day of the move to ensure the building is secured to the foundation,
- Coordinate the power being brought to the building from the existing service,
- Construction of steps to the two exit doors in consultation with the MD
- Removal and replacement of the existing wood shingles with fibreglass shingles,
- Repairs to the windows and doors to seal and secure the building.

The Contractor can make a proposal to complete the project as a turnkey operation or provide supervision to sub-contractors. The Municipal District is willing to review any combination of proposals to see this project completed. The project must be completed before September 30, 2017.

For more information or to provide your proposal to the following contact:

Kelly Hudson, CAO
Municipal District of Spirit River
Box 389, Spirit River, AB, T0H 3G0
780 864 3500
khudson@mdspiritriver.ab.ca

Proposals will be accepted via email or at the MD office until Tuesday May 30, 2017 at 2:00 pm local time.

Please include your trade background and experience in your proposal.
