

Call to Action!

The Alberta Government has announced the closure of the Spirit River AFSC office effective May 1, 2021. The Municipal District of Spirit River appreciates the value of this office to our ratepayers and our region and has written the Government advising that we would be willing to accommodate the AFSC office in our building at no cost. Housing the AFSC office in the MD will not cost the MD and would allow producers to continue with this service locally with no need to drive to Grande Prairie or Fairview. We ask that community members who support this contact Alberta Agriculture and AFSC at the contact information below to encourage this partnership to retain these services. If you have any questions you can contact the MD directly.
