

Fire Advisory

This Advisory has been put in place to encourage extreme caution in order to protect fire suppression service availability of volunteer firefighting crews during the COVID-19 pandemic. The current fire risk is moderate but can change very quickly.

Warm dry conditions and with the winds over the past few days, areas of exposed cured fuels are posing a significant fire risk. As a result, a **Fire Advisory** is now in effect for the areas within the borders of the MD #133 of Spirit River, **Effective Immediately May 6th, 2021.**

Please exercise caution when conducting activities in dry cured fuels.

Open burning of heavy fuels is not recommended at this time. Please postpone any non-essential burning.

Safe Campfires are allowed.

Please make sure your campfire is completely extinguished when you leave it (Soak It, Stir It, Soak It Again).

Clear debris from hot spots on your Off-Highway Vehicle (Knock It Off).

This **Advisory** will remain in place until conditions improve.

If the fire hazard continues to increase, further restrictions may be implemented.

Please contact MD Administration office (780) 864-3500, if you have any questions about this advisory.

Fire Chief

B. Kroes
