

## Fire Restriction

Due to ongoing dry conditions and gusty winds, areas of exposed cured fuels pose a significant wildfire risk. The Fire Hazard is also now Very High. As a result, **Fire Restrictions** are now in effect within the borders of the MD #133 of Spirit River. **Effective immediately.**

Open burning of heavy fuels is not allowed in the MD #133 of Spirit River at this time.

Please exercise caution when conducting activities in dry cured fuels.

Safe campfires are allowed in residential fire pits. No campfires (or other open fires) or charcoal briquettes are allowed in back country or random camping areas. Gas or propane stoves / barbeques and portable propane fire pits are allowed. All Burn Notifications have been revoked until such time as conditions improve.

Please make sure your campfire is completely extinguished when you leave it (Soak It, Stir It, Soak It Again).

Clear debris from hot spots on your Off-Highway Vehicle (Knock It Off).

This **Fire Restriction** will remain in place until conditions improve.

If the fire hazard continues to worsen, a complete fire ban will be issued.

Please contact the MD Administrative office (780) 864-3500, if you have any questions about these restrictions.

Issued by Fire Chief – B. Kroes
